

JIMBO'S

...*Naturally!*

BECK GROVE

Organic Fallbrook Farm

Beck Grove, owned and operated by Robert and Helene Beck, is a 100% organic and biodynamic citrus grove. The Becks believe the quality of the soil and its nutrients make a considerable difference in the flavor of the food they grow. They specialize in the less-mainstream fruits of persimmons, tangerines, kumquats, and blood oranges. Not only are these fruits found in the Jimbo's...*Naturally!* produce department, but the fruits are also used to make the LaVigne brand fruit leathers and conserves found in our grocery aisles.
