## FITCHICK GRANOLA

Began as a way to introduce new mothers in a beach fitness group how to cook and eat healthier, FitChick Granola was born in Solana Beach. The founder was always looking for healthy and delicious food for her family. She started making granola at home for her kids and they loved it. She packed it in their snack bags and ate it herself between clients and workouts. She would bring it to her training sessions and her clients wanted it too. They couldn't get enough of it. This is one granola for fit chicks and fit dudes alike!
