

# JIMBO'S

...Naturally!

## PAGE'S ORGANICS

Organic Ramona Farm

Page's Organics is a grower and farm stand seller of organic heirloom and hybrid tomatoes, both as seedlings in the spring and ripe tomatoes in the spring and fall. Tom Page, the founder of Page's Organics and Killer Organic tomatoes, has been gardening and farming organically for many years. Based in Ramona, he believes in following the natural order of things and puts a great deal of faith in the mission of organics. Tom provides over 14 different varieties of heritage and hybrid tomatoes. He is truly devoted to maintaining the highest standards by staying up-to-date on other producers' practices by attending conferences on sustainable agriculture, and sharing information with the community. To him, "organic farming is more than a production ordeal; it is a way of life."
