RANCHEZ DE SANCHEZ

Organic Fallbrook Farm

Ranchez de Sanchez is located in Fallbrook, California. All of their produce is organically grown and is shipped from San Diego to San Francisco and everywhere in between. Their simple philosophy is that everything works together; the organic rabbit fertilizers, the non-chlorinated well water, clean air and the warmth of the sun.

At Ranchez de Sanchez, they grow mostly avocados and citrus, including passionfruit, oranges, lemons and limes. Ranchez de Sanchez also pride themselves on growing unusual produce, including Pattypan & Tahitian squash, red okra, golden beets, cherimoyas & heirloom vegetables.
