Garden of Life Expands Voluntary Recall to Include Additional Lots of Raw Meal Products Due to Possible Salmonella Contamination

Palm Beach Gardens, Fla., (Feb. 12, 2016) – Garden of Life LLC is expanding its January 29th voluntary recall to include additional lots of its Raw Meal Organic Shake & Meal Chocolate, Original, Vanilla and Vanilla Chai products because an ingredient used in certain lots of the product has the potential to be contaminated with *Salmonella Virchow*. Healthy persons infected with *Salmonella* often experience fever, diarrhea (which may be bloody), nausea, vomiting and abdominal pain. In rare circumstances, infection with *Salmonella* can result in the organism getting into the bloodstream and producing more severe illnesses such as arterial infections (i.e., infected aneurysms), endocarditis and arthritis. If you have symptoms or concerns, please talk to your doctor.

Garden of Life has requested that retailers remove the lots of Raw Meal from sale and that consumers check the lot number on their Raw Meal product and return any products involved in this recall to their point of purchase for a full refund.

After extensive testing of the product and its ingredients, and working in collaboration with the U.S. Food and Drug Administration, the manufacturer, suppliers and other third-party experts, the Company has now identified the likely source of *Salmonella* contamination to be Organic Moringa Leaf powder from a supplier used only in Raw Meal. Because other Garden of Life products containing Moringa use different suppliers, only Raw Meal is exposed.

Following is the list of lots affected added to this recall. Consumers can find the lot codes prominently stamped on the underside of the plastic container.
