

JIMBO'S
...Naturally!

ATTENTION CUSTOMERS!

The California Department of Health has released a statement entitled FAQ-Industrial Hemp and Cannabidiol (CBD) in Food Products. In accordance with this, *Jimbo's...Naturally!* has removed the sale of CBD boosters at our juice bar. CBD products are still available for purchase in our Wellness department.

The CBD product in the booster shots originated from EU Certified Agriculture Hemp seeds. To learn more about this, and an alternative interpretation of the Federal Agriculture act of 2014, please visit the US Hemp Roundtable website and sign up for their newsletter: hempsupporter.com or visit the manufacture's website at: cvsciences.com.

We encourage you to contact the California Department of Public Health, Food and Drug Branch to request the re-evaluation of the law interpretation at the following contacts: (916) 650-6500 • fdbinfo@cdph.ca.gov.

Thank you for your understanding,
Jimbo's...Naturally! Management Team
