Rancho Del Sol is located in the east county of San Diego. The 40 acre farm was established in 1981 when the owners, Linda and Bill Zaiser bought land in Jamul and began growing fruit trees. Thirty years later, the family has planted over 4,000 avocado and specialty citrus trees including sweet satsumas and gold nugget tangerines. Certified organic in 1993, Bill and Linda’s journey has been a long and successful one. The Zaiser’s passion for fresh organic fruit is rivaled only by the family experiences shared at Rancho Del Sol.
