SPROUT POWER

Organic Encanto Farm

Born in a 1,200 square foot greenhouse in the Encanto community of San Diego in 1984, Sprout Power quickly grew from a purely Alfalfa Sprout operation to include Sunflower Greens, Wheat Grass, and over 15 different varieties of sprouts.

Sprout Power is the USDA Certified Organic offering from Sun Grown Organic Distributors, which has been operated by husband and wife team Robin Taylor and Lucila De Alejandro, since 1995 in the exquisite Tijuana River Valley.

They specialize in growing the most vibrant and nutritionally robust sprouts, in a clean, safe environment, to provide you and your family with an exceptional product. Enjoy!
