Suja, meaning long, beautiful life, embodies the promise that flows from the cold-pressed beverages it delivers in each and every bottle. Suja was founded in 2012 by four diverse San Diegans who formed what is now the fastest growing organic, cold-pressed and non-GMO beverage company in the United States.

At Suja Juice, they strive to help people transform their lives through conscious nutrition. They’ve handcrafted three lines of delicious cold-pressed, organic and non-GMO juices and smoothies that are USDA certified organic and certified non-GMO. With a wide range of cold-pressed organic offerings, Suja has a juice for every lifestyle. They hope you enjoy all Suja has to offer and live a long, beautiful life.
